Notes

1. Risk assessments are to be reviewed by the process owners on or before the date shown to ensure they remain suitable and sufficient.
2. Should there be any change to Legislation, equipment, substances, processes or new information arising from accident investigations, employee suggestions or comments, then the risk assessment must be reviewed and amended earlier, and any changes incorporated into the risk assessment and our safe systems of work. Any changes must be re-briefed to those staff affected by the change.
