

LYNCH

PROVIDING

THE COMPLETE

ENVIRONMENTAL

SERVICE

We can provide these services:

- gullies emptied, checked and serviced
- interceptors unblocked and serviced
- inspection chambers pumped out, serviced and repaired
- flooded areas pumped out
- high pressure water jetting
- blocked drains cleared
- maintenance & contract work
- emergency response available

Lynch Direct Solutions can provide you with a fleet of road sweepers and vacuum tankers with the ability to empty and clean road gullies. From building site road gullies to car park and street gullies our extensive fleet of municipal vehicles enables us to provide a comprehensive 'gully sucking' service nationwide.

Gullies must be kept regularly maintained to avoid flooding and our gully sucker is capable of sucking large amounts of water from virtually any location thanks to its fully-maneuvrable sucker.

Let Lynch help with all your environmental needs. Call the Direct Solutions team on 020 8900 0000 or email us at: direct@l-lynch.com
