

SITE TOW DIESEL + ADBLUE BOWSER

Fuel Proof 8,000L Diesel Site Bowser with 1,000L AdBlue storage

Our site tow bowzers are industry-leading all-in-one units, built to transport and dispense diesel and AdBlue safely and efficiently. Custom-made for Lynch, these high-spec bowzers are a firm customer favourite – and perfect for applications where both diesel and AdBlue need to be transported across sites with the utmost security, efficiency and durability. Featuring twin diesel and AdBlue dispensing systems, these British-made bowzers are widely trusted and fully compliant with current environmental regulations.
