

# LIVE DIG RADAR®

---

## Make Service Strikes a thing of the past with the Live Dig Radar®

- Eliminate guesswork: Put safety first with every dig
- No more blind digging around underground infrastructure: Use data to dig with confidence
- Reduce the risk of costly and dangerous utility strikes

---

### LDR Excavate:

- Real-Time Utility Strike Avoidance
- Automatic real-time alerts
- Embedded Ground Penetrating Radar (GPR)
- Detects all utility types
- Easy installation on any platform
- Simple to use
- Last line of defence
- Available for use with 3T - 14T machines

### LDR Visualise:

- Intuitive and easy-to-use control screen
- Installed in the excavator cabin
- Providing real-time alerts to the operator while digging
- Negates the need for off-site expert analysis.

---
